PERSONAL TRANSFORMATION

—WHAT IS IT?

Tom had overwhelming anxiety about never having enough money. He was discouraged because he felt like he could never get ahead or even take a vacation. In his PTI, he traced this back to having been born during the Depression and having “taken on” the fears of his parents. Once he released these fears, he began to practice the principles of Prosperity and Abundance he learned in his group. Tom has now doubled his income and enjoys vacations twice a year with his family.

Nancy and Frank fought all the time. There was so much tension in their relationship that many of their friends stopped inviting them over. They took the PTI together and learned to recognize and stop projecting their own childhood issues onto each other. They were able to make use of the powerful Clearing Process at home to improve their communication. They now have a whole new group of friends who support them in being open and honest with each other.

Sara found herself having a series of frightening accidents, all in small-enclosed vehicles. The first was a canoeing accident in which she almost drowned, the second a car accident where she couldn't get out and the third was accidentally getting locked in a closet. When she began her personal transformation work, these experiences of suffocation, fear and feeling trapped all went back to her birth trauma which was a breech birth in which she almost died. She has used the rebirthing Breathwork to release the need to recreate her traumatic birth. She is accident free and has stopped “struggling.”
